

THE CENTRAL RECORD

FIFTEENTH YEAR.

LANCASTER, KY., FRIDAY, NOVEMBER 18 1904.

NUMBER 34

Local Notes.

First snow fell Sunday.

The bird law has expired.

Bird hunters report fine sport.

No rain of any consequence yet.

The rural mail routes are a great success.

The fat hog is catching it in the neck just now.

You may kill the birds, but it's a fine to sell them.

Get ready for the cranberry "sass," and celery, the turkey is ripe.

They say a good many birds were killed before the law expired.

The merchants are getting ready for Xmas stocks. They will bring on a big lot this time.

Several Garrard county gentlemen are serving on Uncle Sam's jury at Richmond this week.

Subscribe for The Record, and have something to read while toasting your shins these long nights.

The November term of circuit court will convene Monday, the 28th. The dockets are about as usual.

Remember the Thanksgiving sermon will be preached in the Christian church this time, Bro. Ellis will preach the sermon.

Our patrons receive every courtesy and accommodation within the range of prudent banking.

The W C T U will have candy and an exchange at the post office Tuesday before Thanksgiving. Your patronage is earnestly solicited.

Attendance at the Graded School continues to increase and it is probable that another room will be added. Lancaster has the best school in the State.

The Christian Endeavor, of the Christian church will have a bazaar and exchange at the post office Dec. 17th.

Mrs Bookout Dies in Kansas.

Mrs Bookout, sister of Misses Sallie and Martha Tillett, of this city, died at her home near Kansas City last week, the burial taking place there. Mrs. Bookout lived in Lancaster for several years, and was well-known here. Miss Martha Tillett, of Lancaster, had been with Mrs. Bookout for several weeks before her death.

It is exceedingly comforting for the depositors to feel that their funds are judiciously invested or safely cared for 11 18 tf Bank of Bryantsville.

For Thanksgiving.

The ladies of the Baptist church will have an exchange at the post office Saturday before Thanksgiving. Everything nice to eat at very low prices.

Fortunately, we have every thing in our favor, good location, comfortable quarters, ample capital, an efficient force of help, and a good class of customers.

To Correspondents.

In order that all hands in The Record office may have a day off, next week's edition will be printed and placed in the post office on Wednesday afternoon.

We will be ever so much obliged if you will send in your copy a little sooner, and thus enable us to get a day's rest.

Many Lancaster friends sympathize with Chief of Police Jim Allman, of Richmond, who was accidentally shot last week. In searching the house of a negro, Capt. Allman's pistol fell from its scabbard, making a dangerous wound in his head. There is not a better or more faithful officer in Kentucky.

11 18 tf Bank of Bryantsville

Can Get Rid of Horse.

Capt. Herndon says a lady client was in his office one day last week, and seeing a balky horse on the Public Square, spoke of the trouble and annoyance such an animal could cause. "How about a balky husband?" queried the captain. "Well," replied the lady, "you can turn a balky horse in the pasture."

In Fine Shape.

The local lodge Knights of Pythias has taken on new life, and many attend the Friday night meetings. A good job of "spring cleaning" was done recently, that is a number of black sheep were allowed to stray so far from the fold that they will not find the way back, so the lodge is now composed of the best citizens of the town. The hardest and most important work good lodgememn have to perform is that of keeping the roster free from objectionable material. Instead of disliking to cast a black ball, the feeling should be just the opposite.

Married in Jessamine.

Journal:—Miss Bettie, the bright and attractive daughter of Mr and Mrs C S Deane, of Pine, was married at her family residence Wednesday evening at 6:30 o'clock, to Mr Loton Bogie, of Garrard county, the ceremony being performed in a very impressive manner by Rev I B Timberlake, of Nicholasville, after which a most elegant luncheon was served. The Journal wishes these young people a happy and prosperous journey thence.

A Good Precaution.

Mr J A Beazley, Manager of the waterworks, is showing his sound sense by keeping the chemical fire engine charged and in constant readiness for use.

The only drawback ever found to this engine was the lack of water and time consumed in charging the boilers.

Now a hose will quickly fill the boilers, and the engine used many cases to better effect than the big fire hose.

This engine has saved many thousands of dollars worth of property in Lancaster, and is a very valuable machine yet.

Fixing Up For Editors.

The editor of The Record has called a meeting of the Executive Committee of the Kentucky Press Association to be held at Seelbach's Hotel, Louisville, next Saturday.

There is some very important business to fix up, principally that of arranging for the mid winter business meeting, the trip South and the revision of the by laws.

Other matters are to be locked after, and the meeting really should

have been called sooner, but so many of the boys had their quills engaged in telling the people how to save the country, that we deemed it best to wait until after the election.

Full proceedings of the meeting will be published in the Louisville dailies, and the craft will learn what is on tap for this winter.

Bro. Faulconer's Success.

The Ottumwa (Iowa) Democrat of Nov. 7th contains a lengthy notice of the wonderful evangelistic work that is being done in that city by Revs Faulconer and Young. The following is an extract from the notice which will be read with much pleasure by friends of Rev. Henry Faulconer. "Remarkable scenes were enacted yesterday at the evangelistic services being conducted in the East End Presbyterian church by Revs Faulconer and Young. Morning, afternoon and evening the attendance was large and interest intense. During the day not less than one hundred and twenty persons professed their faith and entered upon the Christian life. More than three-fourths of these persons were above sixteen years of age. More than one hundred and eighty have made profession in the past seven days. At the morning services Rev. Faulconer preached an impressive sermon to an audience which filled the auditorium. He based his address on the invitation of the strange woman, in the book of Proverbs, and on the invitation of the Gospel parable, 'Come for all things are now ready.' In the evening the large main auditorium, with chairs in the aisles, could not accommodate the great audience and the Sunday School room had to be used in addition."

Bro. Faulconer's Success.

The law requiring voters to have certificates of registration is a blighted nuisance, and only causes more work for election clerks and annoyance to voters. Many men had to go back to their homes or places of business and hunt up the little certificate, and all for nothing but to comply with one of the many laws which disgrace the statute books of Kentucky.

Millinery at Cost.

We have decided to sell all our Ready-To-Wear and Pattern Hats at cost,

in order to close out our immense stock of these lines. They are all beauties, right up to date, and you will miss a rare bargain if you fail to get one.

The sale is now on, so come early and get first choice. The Marvel Millinery Store. Miss Ada Dickson.

LOUIS LANDRAM.

Entered at the Post Office in Lancaster, Ky., as
Second-Class Mail Matter.

Lancaster, Ky., November 18, 1904.

A writer in an English paper complains that the spirit of patriotism, the spirit that makes a man willing to give up his life for his country, is dying out in Great Britain and scornfully compares the feeling of prudence that prevails to the spirit in Japan that makes the people congratulate a man who has had the honor to have a son killed in battle. The critic argues that English men are ceasing to be brave and fearless and that the once aggressive national sentiment is suffering a sort of dry rot.

He is probably entirely wrong in his diagnosis. The change he notes is not cowardice but a growing distaste for war, which is a very different thing. The same feeling exists in the United States and to an increasing extent in all the civilized countries. Americans are not cowards. They have fought for their country and will fight for it again if need arises, but they see better ways of settling international disputes in these enlightened days.

Englishmen, Americans, all men everywhere thrill at the daring displayed by the Japanese; they admire their indomitable courage, but all the civilized world sighs over the waste of life. In that war the flower of Japanese youth is being mowed down, and host of Russia's promising sons are laid low. A sense of the pity of it all is even stronger than admiration. It is not want of courage or of patriotism that affects Englishmen or Americans; it is the conviction that slaughter is not the expression of love of country.

Hard work makes you weak and flabby. It finally brings on an incurable disease, premature old age, and an early, miserable death. If you work you will get "arteriosclerosis." This is the very latest from the doctors. For centuries people have believed that work and various forms of exercise produced muscle, health and longevity; that loafing produced weakness, decay and an overplus of tissue. Now comes science and overturns the whole system. Loaf, it says, and be strong. The American Medical Association is against the strenuous life. It has discovered that hard work is deadly, and that college athletics produce disease and death. When a young man pays more attention to the diamond, the grid iron and the cinder path, he develops this dreadful new disease of arteriosclerosis. His arteries stiffen and deteriorate; he contracts a serious heart trouble, ages before his time and is cut down as a flower. It really seems as if science were hunting about all the time for old well-known facts to deny and deride.

Uncle Sam's army never wants for men, and the ranks are always full, but it is different with the Navy. Three battle ships are to go out of commission because of lack of men. The only excuse we see for this is that a man can run on land, but if out on the deep blue sea he must put up a winning fight or seek quarters with McGinty, at the bottom.

President Roosevelt is to visit the St. Louis Fair in a few days. After the tragic death of Mr McKinley at just such a gathering, it seems that Mr Roosevelt would fight shy of setting himself up as a target. Every body knows that Ted is not afraid of the devil, but bravery and prudence should go hand in hand.

On the Pennsylvania road an engine crew "forgot" and ran on a track where they met an express train and lost their lives. How men can forget when their lives depend on their memory is a thing hard to understand. Mental processes are often mysterious when one looks for them to be most simple.

Country editors are beginning to study up something to put in their Thanksgiving editorial. This is one article that the general public is better qualified for writing than the editor, in that the former have something to be thankful for.

At Sussex, Wis., a successful bettor on the election treated the entire town to an oyster supper. It would be a big undertaking to treat all the losers on the election.

## A CRYBABY

generally has something to cry for. It is as natural for a sickly baby to cry as it is for a healthy baby to laugh. But who is to blame for the baby's ill-health? The mother generally. Baby's strength must come from her, and when she is weak and suffering she has no strength to give her child. Many mothers testify that their children were sickly until Dr. Pierce's Favorite Prescription was used during the period before the baby's coming. The reason for this is that "Favorite Prescription" makes the mother strong. It gives her strength to give her child. Beyond all this the use of "Favorite Prescription" reduces the pain and strain of maternity, making the baby's advent practically painless.

"I began taking your 'Favorite Prescription' the first month when I expected to become a mother," writes Mrs. R. F. Redden, of Roanoke, Va. "When I had taken six bottles of 'Favorite Prescription' and three of 'Golden Medicinal Water' there was a fine, healthy girl born to us. Instead of two or three days and nights of suffering the greatest agony that one could suffer, as I had always had before, with all the help the doctor and all the time around me could do, I was only sick about five hours and had very little pain at all. I am the mother of ten children, and this one is the finest and most healthy of them all, and a very pretty child too. I don't know how to express my thanks to you for your advice. I insist that all suffering mothers try Dr. Pierce's medicines and be convinced."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute.

*Doctor Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.*

Headless people bear needless pain. The labor of love leads to love of labor.

### FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says:

"As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen the following. A neighbor of mine had child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by Frisbie's Drug Store. 1m
